

# Home Inspection

get what you were promised and pay for what you get

*Save Lakhs on your dream home, by spending a few thousands.*

Home buyers don't know what they're getting into. We help homeowners save a lot of money. We do this by inspecting their home and giving them a technical report, which is generated using a combination of our proprietary app, advanced technology and vast experience in the field of Construction

Home Inspection before moving in saves a lot of money, time and future headaches due to nagging defects that would otherwise crop-up will be identified for rectification by the builder at their cost

In our experience of having helped over 5000 individual customers we have seen that on average a 2000 sft house has - **164** problems

**30%** have dampness

**60%** have variation in area

Our app generates a specifically curated checklist based on every client's home configuration and ensures that no area in and around the apartment or villa is missed

Fees start at Rs. 10,000 only

📍 Nemmadi.in, Bangalore

📺 YT Channel

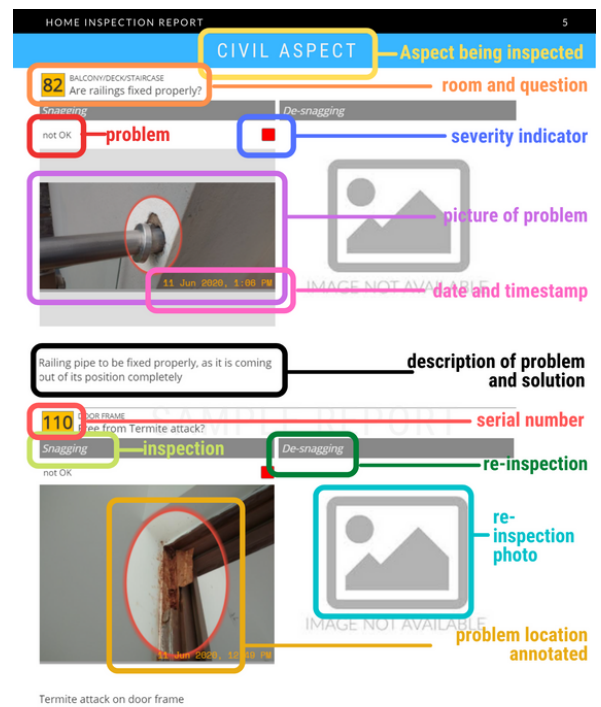

We have helped over 5000 individual apartment and villa owners.

On average in a 2BHK apartment we check in-depth using over **1000 checkpoints**

We check

- Civil Engineering Aspects
- Electrical Aspects
- Plumbing Aspects
- Safety Aspects
- Carpet Areas as per RERA
- Specifications promised by Builder

The technical visual report shared is extremely detailed but easy to read
